

Varied Fluency

Step 4: Analogue to Digital – 24 Hour

National Curriculum Objectives:

Mathematics Year 4: (4M4b) [Read, write and convert time between analogue and digital 12- and 24-hour clocks](#)

Mathematics Year 4: (4M4c) [Solve problems involving converting from hours to minutes; minutes to seconds; years to months; weeks to days](#)

Differentiation:

Developing Questions to support using analogue to digital time (24 hour). Using 15 minute intervals, with fewer options to choose from.

Expected Questions to support using analogue to digital time (24 hour). Using 5 minute intervals, with more options to choose from.

Greater Depth Questions to support using analogue to digital time (24 hour). Using 1 minute intervals, with even more options to choose from.
