

Photographic Scavenger Hunt

ICT

Take a creative photograph to represent each of these themes – the more innovative the better!

1. A forced perspective*
2. A geometric pattern
3. Something flying
4. A 'can you guess what it is?' photo
5. A living thing

*This is where you make something appear smaller or larger than it actually is, e.g. the classic shot of somebody pushing the Leaning Tower of Pisa up.
