

A school (serves approx 120 people)

First, pour a few classrooms into a huge, empty building,

Carefully add, a staff room, library and a multifunctional sports hall,

Mix in one headmistress, a variety of teachers and some TA's to add extra support,

Then take a good amount of knowledge, a pinch of loyalty, some understanding, kindness and compassion,

Stir well

Blend in the national curriculum and add extra subjects for a bit of a kick,

Now for the tricky part,

Sprinkle a diverse mixture of children,

And a good dose of school rules for some discipline,

Throw in the occasional school play for a bit of extra flavour,

Combine with some after-school clubs for some fun,

And turn up the heat,

Put in some quality cooks and nutritious foods and whisk,

leave to settle,

Lastly, serve with a dash of harmony and enjoy,

Note: All ingredients are crucial and must be treated the same, if not, this delicious mixture will turn sour.
